

# MULTISITE HEALTHCARE FACILITIES

**Keeping Your Sites Comfortable, Compliant, and Operating at Peak Performance.** At EMCOR Facilities Services (EFS), we understand the demands of operating a multisite healthcare portfolio—you need to focus on patient care and comfort, finances and operation, and regulatory compliance and safety—just to name a few. Our facilities management model revolves around a single point of contact, streamlining everything from site maintenance to HVAC to energy management and more, so you can focus on your core business.

- Help mitigate risk and ensure compliance
- Best-in-class technical training
- Key Performance Indicators for safety, quality, productivity, and cost reduction
- Recipient of numerous industry awards for safety, project excellence, and overall performance
- Proven change-and transition-management process
- 24/7/365 Customer Solutions Centers

## Comprehensive, Single-Source Multi-Site Solutions

The healthcare industry is under constant pressure to maintain safe, clean, comfortable environments for patients and employees. For organizations with regional or national portfolios, managing multiple contractors can be a time consuming, costly distraction from these core goals. That's why EFS provides a single point of contact and a dedicated account manager to help support multi-site portfolios.

We offer complete facilities maintenance programs or portfolio-wide single-line services like HVAC maintenance. Our CMMS provides quality metrics, robust reporting, and greater visibility into maintenance spend. We also help clients reduce liability by keeping sites compliant with the latest safety and environmental regulations.

## Enhancing the Patient Experience

For healthcare companies, medical offices, clinics, and other health facilities, patients are the top priority. Our services can help improve patient satisfaction in a variety of ways.

**Reliable equipment:** Well maintained equipment instills patient confidence and takes stress off clinicians.

**Clean, attractive environment:** A pristine environment reduces the risk of infection, protects patients, and improves employee morale.

**Occupant comfort:** Proactive HVAC and lighting upgrades help save money and improve patient comfort.
